POWERED BY INNOVATION.
SECURED BY EXPERIENCE.

TITAN Slim Arm Brackets

VPG's new Slim Arm Brackets are more discreet, allowing the device's features to speak for themselves. The TITAN Slim Arm Brackets are also adjustable to secure a wide variety of devices.

Cut-Resistant Cable

The cut-resistant cable is made of high-grade aircraft cable. It's secured to the sensor and is anchored by an adjustable cable stop underneath the counter.

Vertical & Angled Displays

Whatever display your store holds, the TITAN L2QD is adaptable to various fixtures and accommodates most retail environments. Plus, the pedestals are powered to keep the devices charged when rested.

360° Rotation

Customers may rotate the device 360° on the display pedestal to experience full and wide screen content. Power coupler rotates with the device providing clean cable management.

QUICK DISCONNECT

Effortlessly remove device in seconds.
